

Brenda Murillo

Palmdale, CA

(661) 234-1964 | bmurillo3@csb.edu | github.com/brendaMurillo | <https://bmurillo-portfolio.vercel.app>

PROFILE

Computer Science student at California State University, Bakersfield with experience in data analytics, AI data evaluation, statistical modeling, and dashboard development. Skilled in Python, SQL, R, Excel, and Tableau, with hands-on experience cleaning datasets, analyzing trends, and supporting machine learning workflows. Seeking data analyst, data science, or machine learning internship roles.

EXPERIENCE

Data Analyst Workshop

Lancaster, CA

Data Analyst Trainee

June 2026 – Present

- Create 10+ dashboards and visualizations using Tableau and Excel to communicate key insights.
- Perform data preprocessing and validation across 20+ workshop exercises using Python, NumPy, and pandas, identifying and correcting inconsistencies to improve dataset quality and analysis reliability.
- Analyze datasets with 500+ records using Excel, SQL, and Python to identify trends.

Handshake AI

Remote

AI Data Evaluator

February 2026 – Present

- Evaluate multi-format datasets (text, audio, visual) to support machine learning model training.
- Contribute to data validation processes ensuring consistency and accuracy across training inputs.

Jamba Juice

Palmdale, CA

Manager

October 2022 – Present

- Analyze 1,000+ weekly sales and transaction data to verify accuracy and identify discrepancies.
- Troubleshoot store system issues, including offline connection failures and transaction reporting errors.
- Manage financial data including cash deposits and daily reporting for upper management.
- Lead team coordination, shift workflow, and process improvements in a fast-paced environment.

TECHNICAL PROJECTS

Vehicle Emissions Data Analysis (Independent)

- Analyzed 43,000+ vehicle records using statistical methods (correlation, chi-square, regression).
- Created data visualizations in Excel to identify emission trends, correlations, and key environmental factors.

Salvage Reseller Database System (Collaborative)

- Designed and populated a relational database with mock business data using MySQL/MariaDB.
- Integrated PHP and SQL queries to display inventory and support customer purchasing functionality.
- Developed an administrative dashboard for inventory updates and operational analytics.
- Collaborated in a team environment using GitHub for version control and project coordination.

Statistical Data Analysis in R (Ongoing)

- Perform exploratory data analysis using R for data cleaning, transformation, and visualization.
- Build data pipelines to process and analyze datasets using statistical techniques.
- Apply regression and clustering techniques (k-means, hierarchical) to analyze patterns and support insights.

EDUCATION

California State University, Bakersfield

Bakersfield, CA

Bachelor of Science, Computer Science | GPA: 3.65/4.0

August 2025 – May 2027 (Expected)

COURSEWORK

Artificial Intelligence, Database Systems, Software Engineering, Data Structures, Linear Algebra, App Development

TECHNICAL SKILLS

Programming Languages: Python, SQL, R, Java, JavaScript, C, PHP

Data Science & Analytics: Data Cleaning, Data Visualization, Statistical Analysis, EDA, Regression, Clustering, Predictive Modeling, Hypothesis Testing

Libraries & Frameworks: pandas, NumPy, Matplotlib, OpenCV, dplyr, ggplot2

Tools & Technologies: Tableau, Excel, GitHub, VS Code, MySQL, MariaDB, MongoDB, React Native
