

Brenda Murillo

Palmdale, CA

(661) 234-1964 | bmurillo3@csb.edu | github.com/brendaMurillo | <https://bmurillo-portfolio.vercel.app>

PROFILE

Computer Science student at California State University, Bakersfield seeking Data Analyst, Data Science, or Machine Learning internships. Experienced in Python, SQL, Tableau, Excel, statistical analysis, and machine learning through research, analytics projects, and AI data evaluation.

EXPERIENCE

Data Analyst Workshop

Lancaster, CA

Data Analyst Trainee

June 2026

- Built 10+ interactive Tableau and Excel dashboards; used SQL and Python to clean, validate, and analyze datasets for trends and decision-making.
- Applied EDA, preprocessing, and statistical analysis across 20+ analytical projects, improving data quality and communicating findings through visualizations.

Handshake AI

Remote

AI Data Evaluator

February 2026 – Present

- Evaluated text, image, and audio datasets to improve machine learning training quality.
- Validated annotations and identified inconsistencies to support high-quality AI model development.

Jamba Juice

Palmdale, CA

Manager

October 2022 – Present

- Analyze 1,000+ weekly sales and transaction data to verify accuracy and identify discrepancies.
- Troubleshoot store system issues, including offline connection failures and transaction reporting errors.
- Manage financial data including cash deposits and daily reporting for upper management.
- Lead team coordination, shift workflow, and process improvements in a fast-paced environment.

TECHNICAL PROJECTS

Vehicle Emissions Data Analysis (Independent)

- Analyzed 43,000+ vehicle records using statistical methods (correlation, chi-square, regression).
- Created data visualizations in Excel to identify emission trends, correlations, and key environmental factors.

Salvage Reseller Database System (Collaborative)

- Designed and implemented a relational database using MySQL/MariaDB for inventory management.
- Developed SQL queries and PHP integration supporting customer transactions and operational reporting.
- Built an administrative dashboard and collaborated using GitHub for version control.

Predicting Employee Turnover Using Machine Learning (*SIGTSE Paper in Preparation*)

- Developed Logistic Regression, Random Forest, and XGBoost models on a 15,000+ record dataset.
- Engineered predictive features and tuned hyperparameters to improve model performance.
- Evaluated models using ROC-AUC, precision, recall, F1-score, and confusion matrices.

EDUCATION

California State University, Bakersfield

Bakersfield, CA

Bachelor of Science, Computer Science | GPA: 3.65/4.0

August 2025 – May 2027 (Expected)

Activities: Vice President, Robotics Club

RELEVANT COURSEWORK

Artificial Intelligence, Database Systems, Software Engineering, Data Structures, Linear Algebra, App Development

TECHNICAL SKILLS

Programming Languages: Python, SQL, R, Java, JavaScript, C, PHP

Data Science & Analytics: EDA, Statistical Analysis, Machine Learning, Predictive Modeling, Feature Engineering, Hypothesis Testing

Libraries & Frameworks: pandas, NumPy, scikit-learn, XGBoost, Matplotlib, dplyr, ggplot2

Tools & Technologies: Tableau, Excel, GitHub, VS Code, MySQL, MariaDB, MongoDB, React Native
